Dear Applicant:

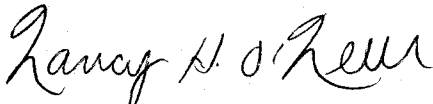

To apply for admission to Crouse Community Center you must complete application forms, which consist of the following:

- A personal application form to be completed by the person or family.
- A medical application to be completed by the physician.

In addition, New York State requires a PRI (Patient Review Instrument) and Screen be completed before anyone can enter a nursing home. The PRI and Screen can be completed by the Public Health Nurse if the applicant is at home, OR by the hospital staff if the applicant is hospitalized.

Crouse Community Center will review the completed forms and contact you.

Sincerely,

Nancy H. O'Neill
